Dear Sir;

Please find enclosed a money order for $6.00 to cover exchange and cost of handling for shipment of your book "Whitewash." I happened to catch you on WCAU the other night and thought you handled yourself most admirably.

I have read the paperback edition of the Warren Report and of course was not particularly satisfied with the manner in which it seems to be handled. Personally, I feel Oswald was present at the scene and probably deposited the rifle and shells at the scene but did not fire the shots. Ronald Fischer's testimony about "Oswald" concentrating on the Triple Underpass for a considerable period prior to the assassination struck me as sort of strange and abnormal for a person in his position if he were the one who was to do the shooting. It's almost as if he were looking for a signal as to when to shove the rifle out of the window. (over)

I just love M. Brennan's statement (~~about~~) about watching Oswald "aiming for his last shot."

At any rate, I'll look forward to receiving your book which I hope provides me with some interesting reading. Thanking you in advance I remain,

Yours truly,
Bruce G. Halub

P.S. If possible, would appreciate your signing the book
